Investment Thesis

Leading & only Listed Depository: an objective of providing convenient, dependable and secure depository services at affordable cost to all market participants. As a result CDSL maintains and services 6 cr+ Demat accounts of Investors or Beneficial Owners (BOs) spread across India. These BOs are serviced by CDSL's 590+ Depository Participants from over 21,400+ locations.

CDSL continues to gain incremental market share :As per the data published by the SEBI, it is witnessed that, CDSL continued to gain the higher share of incremental demat accounts in Q3FY22. As per the company's presentation, CDSL added 91 lakhs accounts in Q3FY22 to take the total accounts to 5.85cr. CDSL one of the biggest beneficiaries of revival of capital market. CDSL market share continues to remain above 50%. We have about 5.85cr demat account and 75cr smart phone user and more than 100cr account holder as per the data published by the SEBI, it is witnessed that, CDSL continued to gain the higher share of incremental demat accounts in Q3FY22. As per the company's presentation, CDSL added 91 lakhs accounts in Q3FY22 to take the total accounts to 5.56cr. CDSL market share continues to remain above 50%.CDSL continues to focus on increasing DPs with net beneficial owner (BO) accounts increased to 5.56 cr (higher than NSDL BO of 2.5cr) from 3.97cr at the end of FY21. With an incremental market share of 88%, the company added 91 lakhs accounts in 3QFY22, as per SEBI monthly bulletin. Nature of the Business: The depository sector is duopolistic in nature. This means that there is an entry barrier for any other company to enter the sector.

Expansion & Awareness: It has also signed an agreement with Nepal stock exchange Ltd to set up a depository and clearing settlement system in Nepal. There is also an increasing awareness of the stock market in tier-2, tier-3 and tier-4 towns, which provides a lot of potential for the two depositories in India.

Another key to growth is to add more depository participants due to there will be more demat account openings.CDSL gained competitive advantage over NSDL by being first mover in registering for and rolling KYC process electronically and allowing single account holder.there were the hurdles In NSDL due to this reason CDSL has almost twice DPs as compared to NSDL, most of Fintech's associated themselves with CDSL.who deal with them are angel one, Upstox, Zerodha and Motilal oswal.

Key Business Highlights

- CDSL at present, 70% market share where the total number of demat accounts stood at 8.4 cr as on 31st December, 2021. And 6 Cr. active accounts. The company has 9.6 cr. unique client codes witnessing a growth of 57% YoY. 91 lakh demat accounts were opened in Q3 FY22, highest ever quarterly addition v/s 28 lakh in Q3 FY21. Number of securities in demat custody and value of securities stood at ₹53,302 crore and ₹36,93,975 crore.
- The number of live companies registered on the exchange stood at 17,748, witnessing a growth of 11% from 15,992 companies as on 31st December, 2020 and the number of depository participants stood at 592. DP participants are the main source of growth in BO account opening as per latest data, CDSL has more than twice the number of DP participants as compared to NSDL.

Valuation

- The reassuring part is that the company continues to add BO accounts at a healthy rate (+92.4% YoY) and gain market share. The market-linked revenue (70%) is volatile but delivered a pre-pandemic (FY15-FY20) CAGR of 16%. We continue a positive stance, Our recommendation with a buy call on CDSL with multiple of 45x FY24E EPS of 42.8 to arrive at a target price INR 1923.
- Based on the following trigger points such as ongoing momentum in transaction/pledge/IPO revenue, led by retail activity (online brokers), continued gains in BO account market share (+1,061bps YoY to ~70%), growth in annual issuer charges and higher activity in the IPO market +16.2/17.2% revenue/EBITDA CAGRs over FY22-24E, following two strong years of revenue growth (+53/66% growth in FY21/22E).

Risk & Concern

- Inability to increase the pricing when cost goes up can impact the profitability.
- A large proportion of the business is transaction related and dependent on trading volume.
- The business of the organization has direct correlation with the level of delivery based volumes and price levels on major stock exchanges.
- Any declines in trading volume and market liquidity could adversely affect the operations of the company.
