

Technical Outlook: Nifty

Nifty50 on the daily chart is moving in a higher high higher bottom formation from past two months and has given an approximately 17 percent in a very short span of time.

Benchmark Index on 17th August witnessed a flat to positive opening following its global peers and continued to trade in green throughout the day with higher bottom formation on the intraday charts.

The Index has closed above its downward sloping trend line on the daily chart and prices are currently sustaining above the same. The closing above the trend line indicates a breakout in the prices.

The momentum oscillator RSI (14) on the daily has reached above the overbought zone (70) and still trending higher. The RSI reading above 80 levels on the daily chart is an alarm sign for bulls as we may see a dip or a correction in the prices soon. The MACD indicator has also reached above its previous high levels and the distance between its lines of polarity has increased significantly.

The immediate support for the Nifty is placed at 17750 and below those 17600 levels. The upside resistance is capped near 18100 & 18250 levels.
