

KEY HEADLINES:

The rupee depreciated by 36 paise to close at 79.61 (provisional) against the US dollar on Thursday amid rising crude oil prices and dollar demand from importer after a fall in last few days.

At the interbank foreign exchange market, the local currency opened at 79.22 and saw an intra-day high of 79.22 and a low of 79.69 against the American currency. It finally ended at 79.61, down 36 paise over its previous close of 79.25.

Now focus on key domestic macroeconomic data points like index of industrial production (IIP), consumer price index (CPI) and trade balance numbers due on Friday for further cues.

The dollar extended its losses against other major currencies on Thursday, a day after a report showed U.S. inflation was not as hot as anticipated in July, prompting traders to dial back expectations for rate hikes by the Federal Reserve going forward. The dollar index was down 0.257% at 104.95 at 10:45 a.m. EDT (1445 GMT), after recording its biggest daily fall in five months, of 1%, the previous day.

Investors slashed bets on the possibility that the Fed will raise interest rates by 75 basis points for a third consecutive time when it meets in September after recent data showed U.S. consumer prices were unchanged in July.

Foreign institutional investors remained net buyers in the capital market on Wednesday as they purchased shares worth Rs 1,061.88 crore, as per exchange data.

Economic Indicators to be released.
