

KEY HEADLINES:

The Indian rupee closed slightly weaker on Thursday, pressured by persistent equity outflows and elevated U.S. Treasury yields. However, likely U.S. dollar sales from the Reserve Bank of India (RBI) capped the losses.

Equity-related outflows were another headwind for the rupee. Overseas investors have sold over \$1.19 billion worth of Indian equities in October so far, according to NSDL data.

The rupee at NSE Future 28 Nov ended weak by 8 paise at 83.32 against previous close of 83.24 and after make low of 83.24 and high of 83.33. Asian currencies weakened with the Korean won leading losses down by nearly 0.8%.

The U.S. dollar was modestly higher against a basket of currencies on Thursday after data showed the U.S. economy grew at its fastest pace in nearly two years in the third quarter, once again defying dire warnings of a recession that have lingered since 2022. The dollar index, which measures its strength against a basket of six rivals, was 0.0% higher at 106.58. The index hit a near 3-week high of 106.89 earlier in the session. The euro was 0.03% lower at \$ 1.0564.

US GDP increased at a 4.9% annualized rate last quarter, the fastest since the fourth quarter of 2021, the Commerce Department's Bureau of Economic Analysis said in its advance estimate of third-quarter GDP growth. Economists polled by Reuters had forecast GDP rising at a 4.3% rate.

Meanwhile, the European Central Bank left interest rates unchanged as expected on Thursday, snapping an unprecedented streak of 10 consecutive rate hikes while insisting that any talk of rate cuts was premature.

In cryptocurrencies, bitcoin was down 1.2% at \$34,084. The world's largest cryptocurrency has surged 14% this week on speculation that an exchange-traded bitcoin fund is imminent.

Fed funds futures imply a 30% probability the Fed will raise rates in December, down from 39% before Powell's comments, and no chance of a hike in November, according to the CME Group's FedWatch Tool.

Economic Indicators to be released.

Indicator	Currency	Forecast	Previous	Impact
