

## KEY HEADLINES:

The Indian rupee ended flat as weak by 1 paise against greenback as price seen mix of the view on one side dollar index climb to fresh 20-year high makes rupee weaker while other side foreign inflows remain good in last 1-month support support rupee from sharp fall.

Overall, local equities have seen foreign investor inflows of about \$6 billion in August, the highest since December 2020. August also marked the first month this year when overseas investors turned net buyers of India's government debt.

At NSE Future exchange, Indian rupee open at 79.99 and made low of 79.92 & high of 80.08 to finally close at 79.97, a 1 paise weak over previous close.

The dollar marched higher on Tuesday after a report on the U.S. services industry in August reinforced the view that the United States was not in recession, while the euro and rate-sensitive Japanese yen tumbled further against the greenback. The yield on benchmark 10-year U.S. Treasury notes jumped 14.3 basis points to 3.334% to highs last seen in June, on expectations the Federal Reserve will keep hiking interest rates as it tightens monetary policy in a bid to quell inflation.

China's central bank late on Monday cut the foreign exchange reserve requirement ratio (RRR), freeing up dollars for banks to sell.

investors are also preparing for Thursday's European Central Bank (ECB) meeting and markets have priced a near 80% chance of a supersized 75 basis point (bp) interest rate hike.

## Economic Indicators to be released.

Indicator	Currency	Forecast	Previous	Impact
