

## KEY HEADLINES:

- The dollar was slightly higher on Wednesday after the release of the minutes of the U.S. Federal Reserve’s latest policy meeting, which showed Fed officials wrestling with the onset of inflation and financial stability concerns but included no big surprises.
- Fed officials last month felt substantial further progress on the economic recovery “was generally seen as not having yet been met,” but agreed they must be ready to act if inflation or other risks materialize, according to the minutes of the central bank’s June policy meeting.
- The dollar index, which measures the greenback against a basket of peer currencies, was up 0.135% at 92.664, consolidating near its recent 3-month high, even as U.S. bond yields fell to their lowest levels since February.
- The euro touched a three-month low against the dollar on Wednesday after German data raised doubts about the strength of the economic recovery.
- Investor sentiment in Germany, the euro zone’s biggest economy, fell sharply in July, though it remained at a very high level, the ZEW economic research institute reported.
- Other risk-sensitive currencies took a hit after oil prices plunged as OPEC producers cancelled a meeting when major players were unable to come to an agreement to increase supply.
-
