- On daily chart nifty has formed a doji candle and has closed near the day before yesterday's closing indicating pause in trend until yesterday's high is not taken out..
- Any correction towards the 24,600 level could present an opportunity to enter long in the market.
- Additionally, the RSI, a momentum indicator is showing northern movement. Hence, the market is expected to move in the sideways to positive direction.

- Bank Nifty has formed a gravestone doji candle on the daily chart after forming a reasonably bullish marubozu candle in previous session, yet has closed above the previous candle.
- The Relative Strength Index (RSI) is in heading towards the range bound region, indicating sideways to positive momentum.
- Although the banking index is showing strength, it has not managed to stay above 51,750. Fresh long positions could be considered if it sustains above this level.
