*Closing Basis

Rationale:

- After a prolonged correction, OFSS has given a breakout of its “Falling Channel Pattern” on a monthly time frame.
- After forming a strong base around Rs 2700, the stock has given a stellar move over the past couple of months along with the broader market recovery.
- The stock belongs to that camp as it steadily kept moving higher since March lows and has already given decent returns.
- The strong reversal in Momentum oscillator RSI (14) from 30 level has set up a V shape reversal and currently reading near 50 level with positive crossover on a monthly interval.
- By observing Relative Strength (RS) on a weekly horizon one can observe that stock is currently outperforming the benchmark index since April 20.
- Based on the above Technical studies we can come out with a view that the price may move higher in coming sessions.
